SPECIALTIES

- 3C gameplay
- Editor tools
- Prototyping
- Multiplayer / networking

GAME ENGINES

- Unity
- Unreal Engine 4 / 5
- Godot

PROGRAMMING LANGUAGES

C# · C++ · Blueprint · Python · GDScript

SOFT SKILLS

- Communication
- Respectful
- Team player

LANGUAGES

French – Native
English – TOEIC

EDUCATION

2025 Lead Game Design program
RNCP Level 7

2025 AEC LEA.DS
Game Design

2023 AEC NWE.05
Game Design

Raphaël Daubelcour

GAME DEVELOPER

ABOUT ME

Versatile and creative game developer, passionate about building tools that make game development easier and about programming 3C gameplay. I love prototyping mechanics, and my goal is to become a technical game designer.

WORK EXPERIENCE

Goose Byte

Programmer · May 2025 – Aug. 2025 · Montréal

- 3C programming
- LDO programming
- Network programming

Goose Byte | Freelance

3C Programmer / 3C Designer · Prototyping · May 2025 – Aug. 2025 · Montréal

- Rapid gameplay prototyping in UEFN (Unreal Editor for Fortnite)
- Gameplay scripting in Verse

Wires and Whiskers | Isart Digital · UE5 · 2-player co-op · team of 8

Technical Designer · 3C Programmer · Sept. 2024 – June 2025 · Montréal

- Designed and implemented both characters' 3C in Blueprint (movement, combat, synergies)
- Dynamic cameras (top-down and 2.5D) with adaptive framing, rails and focus points
- Editor tools for level design

PROJECTS

Echelon | FPS · Unreal Engine 5 · team of 8

Technical Game Designer · 2024

- Programmed the 3C: camera tilt and bobbing, dynamic FOV, “bump” ability
- Steam integration (leaderboards) with the Steam SDK in Unreal C++
- Height-based dynamic fog, save system and settings menus

Outlaw's Vengeance Tool | Tool · Unreal Engine 5

Technical Game Designer · 2025

- Building-creation tool inspired by Ubisoft's tool for Assassin's Creed

League of Godot | Prototype · Godot · C#

Developer · 2023

- MOBA prototype inspired by League of Legends: characters, spells and items
- Dedicated-server architecture with RPC syncing, composition-based design

Tweener | Unity editor tool

Programmer · 2023

- Component with a custom inspector to animate position, rotation and scale (3D and UI) without code
